Meet the Scott Family

Cassandra and her three children: Titus (14), Bre'Asia (4) and Broderick (2).

When the Scott family moves into their new Habitat home in the Faith Subdivision, their hopes, dreams and prayers will be fulfilled. Cassandra Scott, a single mother of three, never thought she would have her own home at this age.

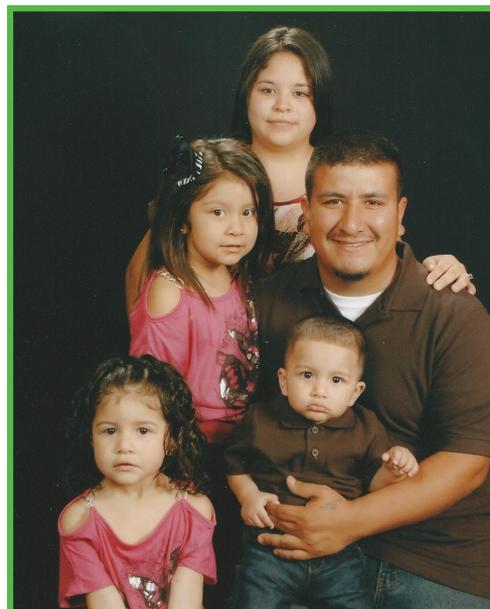

The first time Cassandra attended an informational session about Habitat, she did not submit an application. She didn't feel like it was the right time for her then. But with encouragement from family and friends, Cassandra attended a second informational session and then applied for the program.

Cassandra has worked as a Certified Nurse Aide for twelve years and is employed as a Medication Aide for Isle At Watercrest

Assisted Living. Originally from Navasota, she moved to Bryan in 2008.

Cassandra and her three children, Titus (14), Bre'Asia (4) and Broderick (2) currently live in a two bedroom duplex. Titus is really excited about getting his own room, something he has always wanted. Bre'Asia and Broderick love parks and visit Mary Branch Park on a daily basis. Cassandra said she has never seen them so happy as when they learned that the Faith Subdivision will eventually have its own playground. It will be like living in a dream world for them! 

Meet the Tomas/Fajardo Family

Mayra and Noe with Nataly (5), Nayeli (4) and Fabian (2).

Mayra and Noe, along with their three children (ages 5, 4 and 2), have lived with their parents for the past two years. It's very crowded and the kids all share one room. The family is very ready for more space.

Noe has been employed with Glenn Fuqua, Inc. for eight years and Mayra is a stay at home mom. Noe's sister is a Habitat homeowner and suggested to Noe and Mayra that they apply for a Habitat home themselves.

After acceptance into the Habitat program, the couple immediately got to work completing their sweat equity hours, working in the ReStore and helping other families build their homes.

But now they're getting close to starting their own. Mayra and Noe expressed that they are looking forward to a little more privacy, decorating their new house and just having weekends to spend together as a family.

"The entire Habitat process has brought us closer together as a couple," says Mayra. Mayra and Noe believe that owning their own home will provide their children stability and help them succeed. The kids are especially enthusiastic about their new home and want to help out too. Mayra said that "the kids are just as excited as we are and ask to come with us to homeownership classes."

To Habitat and their sponsors, Mayra and Noe said, "Thank you for accepting us as a Habitat family. Thank you to our sponsors for all of their support."
